

## Metal Sheet Stamping Brackets

### Features of [custom metal brackets](#):

- Product name: Metal Stamping Brackets
- Material: Carbon Steel, Brass, Copper, Stainless Steel, Alumnum, Titanium Alloy
- Machining Tolerances:0.1mm
- Machining Process: Punching, edging, pressing and welding
- Min. Order:1000PCS
- Surface Treatment: Polishing, Heat Treatment, Sand Blasting, Zinc Plated, Anodization, Chemical

**Tel:**+86 574 62387787 **Fax:**+86 574 62387788 **Mobile:**+86 13758266067 **Skype:**hewcho  
**Email:**info@hewcho.com **Whatsapp:**+86 13758266067 **Website:**www.hewcho.com

Fim,

- Packing: Carton Box, Blister tray, Pallet, Wooden Case.
- Certificate:ISO9001:2008, ISO/TS16949

The [stamped bracket](#) is one of the most popular products in our company.

What we can Provide:	 	Machining Material:	 
CNC Machining Service		Carbon Steel	
CNC Turning Service		Stainless Steel	
CNC Milling Service		Aluminum	
Cold Forging Service		Brass	
Metal Stamping Service		Copper	
		Titanium Alloy	
Surface Treatment	 	Application:	 
Heat Treatment		Automobile Spare Parts	
Sand Blasting		Electrical Appliance Industry	
Polishing		Electronics Industry	
Zinc Plated		General Industry	
Anodization		Machinery and Equipment	
Chemical Fim		Hydraulic and Pneumatic	

## Description of stamped bracket

**Metal Stamping Brackets** are technical products made from flat and metallic strips or coils on behalf of customers. As a material are usually cold or hot rolled sheets up to 8 mm thickness are used, which are optimally suitable for forming. The production takes place on automated machining centers by, punching , edging , pressing and welding. Typical application examples for stamping bracket are machinery bracket, holding plates, vehicle parts and many more.

Whatever the requirement, as a **bracket manufacturer**, Ningbo Hewcho offers you the whole

**Tel:**+86 574 62387787 **Fax:**+86 574 62387788 **Mobile:**+86 13758266067 **Skype:**hewcho

variety of sheet metal working and supply industrial customers with a wide range of technical sheet metal parts. You will receive optimum manufacturing solutions for single-stage machining processes, prototype production and even mass production of even complex sheet metal parts. An extensive stock of common standard sheets made of steel, stainless steel and aluminum as well as sound logistics concepts guarantee on- time delivery of your sheet metal parts.

Ningbo Hewcho specialize in all the requirements and factors that are required of modern and flexible sheet metal processing today. High-quality components or assemblies are produced according to customer requirements with quality and the most modern production technology from sheet metal. Depending on the order, CNC-controlled lasers, punching, pressing or folding machines are used. The individual components are usually connected by MIG / MAG / TIG welding, spot and stud welding or with rivet and screw connections.

### Why Choose [Hewcho](#)?

Low price, process performance (e.g., weldability and cold formability) good.
